Henry's Fork Agricultural Corridor Wildlife Habitat Conservation Case Study

Henry's Fork Agricultural Corridor Wildlife Habitat Conservation Case Study

Principal Investigators

Professor Craig W. Johnson

Department of Landscape Architecture & Environmental Planning
and

Professor Richard E. Toth

Department of Environment and Society

Utah State University

Research Assistants

Keith Christensen

Kimberly Karish

Data Contributors

Kim Goodman

Steve Bondi

Teton Regional Land Trust

Charlie Sperry

Henry's Fork Foundation

Graphic Layout and Design

Keith Christensen

Abraham Medina

Editor

Mary Ellen Heiner

Funded and Coordinated with

USDA Natural Resources Conservation Service

Watershed Science Institute

Wildlife Habitat Management Institute

Hank Henry – Coordinator

November, 2004

The U. S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, gender, religion, age, disability, political beliefs, sexual orientation, or marital or family status. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact the USDA's TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint of discrimination, write USDA, Director, Office of Civil Rights, Room 326-W, Whitten Building, 14th and Independence Avenue, SW, Washington, DC 20250-9410 or call (202) 720-5964 (voice and TDD). USDA is an equal opportunity provider and employer.

USDA Acknowledgements

Natural Resources Conservation Service (NRCS)

Preparing this case study required the collaboration of many individuals. NRCS Watershed Science and Wildlife Habitat Management Institute personnel played a significant role; their thoughts, suggestions and constructive criticism contributed to the case studies content, integration with *The Handbook* and its focus on practical applications for those involved in similar watershed scale planning projects.

NRCS and outside reviewers made numerous insightful recommendations. Their insistence on accuracy and adherence to NRCS planning procedures and conservation principles detailed in *The Handbook* were most helpful. NRCS reviewers included **Carolyn Adams**-NRCS, Director Watershed Science Institute, NC; **Ken Beckmann**-NRCS, District Conservationist, ID; **Gary Bentrup**-USFS National Agroforestry Center, Watershed Planner, NE; **Frank Fink**-NRCS, State Biologist, ID; **Pete Heard**-NRCS, Director, Wildlife Habitat Management Institute, MS; **Hank Henry**-NRCS, Terrestrial Ecologist, NC; and **Kathryn Boyer**-NRCS, Fisheries Biologist, OR.

Outside reviewers included **Dennis Aslett**-Idaho Department of Fish and Game, Regional Biologist, ID; **Kyle Babbit**-Henry's Fork Foundation, Planning Consultant, ID; **Kimberly Goodman**-Teton Regional Land Trust, Special Projects Coordinator, ID; **Karen Lords**-Fremont County Planning Commission, ID; **Jeff McCreary**-Ducks Unlimited, Regional Biologist, UT; **Lee Nellis**-Sonoran Institute, Planner, CO; **Ron Rope**-Idaho National Energy and Environmental Lab, Advisory Scientist, ID; and **Charlie Sperry**-Montana Fish, Wildlife and Parks, Recreation Specialist, MT. We also wish to acknowledge our indebtedness to the researchers, authors, and planners whose work we referenced extensively.

Numerous individuals provided photographs. They are credited in the Case Study. We are particularly indebted to **Jared Barnes**, CA; **Dave Bell**, UT; **Gary Bentrup**, NE; **Lynn Betts**, IA; **Hank Henry**, NC; **Craig Johnson**, UT; **Abe Medina**, ID; **Dick Rol**, CA; **Richard Toth**, UT; and **Utah Division of Wildlife Resources**. Thank you to **Keith Christensen** for his artistic touch and computer skill in preparing the final report layout.

Richard Toth

Table Of Contents

Preface

Background.	1
Case Study Site.	3
Methods.	6
Case Study.	7
PRECONDITIONS	7
IDENTIFY PROBLEMS AND OPPORTUNITIES.	8
DETERMINE OBJECTIVES.	10
INVENTORY RESOURCES.	11
FORMULATE ALTERNATIVES.	18
EVALUATE ALTERNATIVES.	32
MAKE DECISIONS.	35
IMPLEMENT PLAN.	37
EVALUATE PLAN.	39
Farm and Ranch Scale.	41
Conclusions.	42
Bibliography and References Cited.	45
Appendix A - Wildlife Species Inventory.	51
Appendix B - Corridor Inventory Worksheets.	59
Appendix C - Species of Special Concern.	65
Appendix D - Evaluation Worksheets.	67
Appendix E - GIS Data Layers.	73
